President's Message

Respected Mentors and Teachers and Dear Colleagues

Our recently minted, UAU has taken its first few steps – two largely successful conferences at Meerut and Lucknow. The Organizing team at Lucknow deserves credit for an excellent meeting and to have International Faculty in our midst. These two events would not have been possible but for the enthusiastic support of our members and their active participation. However we need not sit on our laurels but strive to make this organization very robust and its annual meeting as “look forward to” kind of meeting.

The idea behind the creation of this state chapter was to provide a platform to each of our members to show case their talent and to hold meetings in towns where larger meetings were not feasible. Our aim should not be to replicate what is being done at the national and zonal USI meetings but to have innovative / interactive sessions. In order to have this 'out of the box' concept, we need fresh ideas and suggestions from all our members regarding both the format as well as the topics to be discussed at our next meeting at Kanpur in April 2016. I invite each one to write to our secretary or me with their valued comments and tips to improve our meeting and to make it attractive for the participants. I would suggest broad based program with topics relevant to day to day urological issues with no one on the podium more than once.

For a broad based program we need to ensure that all Urologists in the states of Uttar Pradesh and Uttarakhand become members and would encourage all to check if Urologists in their respective towns are members and if someone is missing then to motivate them to become a member at the earliest.

Members can write to the Secretary if they seek to organize any event during this coming year and wish to associate with UAU.

I look forward to year of not only consolidation of our association but also striving ahead.

Long live UAU.

Anil Elhence
