PRESIDENT'S MESSAGE

Respected Seniors and friends,

Greetings from UAU !!! This month we again had very interesting meets both at Capetown & New Delhi. There was enthusiastic participation by UAU members in the World Congress of Endourology with several videos and posters apart from active & lively discussion. I am proud to say that UAU members outsourced rest of the country both in terms of scientific contents as well as numbers. I would request the members to kindly forward their abstracts so that we may publish them in our Newsletter for the interest of those who could not attend because of paucity of time. The Percon organised at New Delhi also had good participation from our members. Dr. Pal and the Delhi Urological Society need to be commended for organising such a wonderful academic feast and workshop.

There has been growing reforms in our country under the able guidance of our dynamic Prime Minister and we must also keep in pace with him and try to shell out the growing influence of Industry specially in decision making about patient management and try to offer the cheapest possible alternative to the patients. Our country can boast of providing the cheapest and best class treatment in Urology and our members have proved it on several occasion.

A proper documentation and recording of cases is the need of hour and my request to the members is to spend some time and money in this direction as we lag behind in record keeping and scientific presentations not only with our fellow Urologists in other States but also from other Nations although we are doing much better work in bulk. A proper registry of all diseases and treatments should be made so that we can come out of our own data which is the need of the hour. India can become world leader in Urology as we already have top stalwart Indians in the senior posts in US..

The Centre of Excellence idea is still in form of seed and needs nurturing from the members as it can borne results in decade and more so in none of the States such facility exists. I request all members to send their ideas, proposals so that the same can be initiated. We need mentors to guide our youngsters who can be given guidance by the seniors in respective field. The month of December is a little restive before our National Conference at Mumbai in January. I expect a large contingent from our State for good deliberation and interaction with National representatives.

We are still lagging behind in our membership drive and I request all especially the office bearers to kindly help our Honorary Secretary and Treasurer in enrolling members from their respective areas and Institutions. I request all members to do local problem oriented workshops, CME under the Banner of UAU after informing our Honorary Secretary.

Your page of situation vacant, machines for sale and news about staring of new facility for our members in the Newsletter is still waiting to see the the dawn We invite members participation in this regards.

Longlive UAU,

Jai Hind!!

Dr VK Mishra
President, UAU

HON SECRETARY'S MESSAGE

Dear Colleagues,

The month of November is a landmark & memorable month for India and the whole world, which will have a significant but yet unpredictable effect on everybody. Demonetization & Donald Trump will have a definite effect on all of us. Hope for the good.

It is a matter of coincidence also that 8th November saw the above changes and also when WCE 2016 started on the other side of equator at Cape Town. On a lighter note the northern hemisphere (India & USA) shook when of UAU members went to the other side of equator, in WCE 2016.

Dr. Madhu Agrawal, Dr. Aneesh Srivastva, Dr VK Mishra, Dr Anil Sanwal, Dr Dilip Chaurasia, Dr Rajsekhar, Dr Pawan Jindal and myself participated in WCE 2016.

Many papers were presented & Dr VK Mishra alone has 5 papers to his credit. I would request that all the papers that were presented there be made known to UAU members & its brief abstract & take home message be made available to be published at UAU forum of Newsletter & UAUCON 2017 so that all members be benefitted.

Our Society account has been opened at ICICI Branch in Agra and now active transaction can be done. It is a big step forward and I congratulate all those involved in this major activity.

Membership drive has to be increased and please update about the city level society formation so that latest in urology can be taken to the masses. The quiz competition for postgraduates is being planned at SGPGI at BHU & KGMC and the winners will take part in final quiz at UAUCON. I request the heads of these giant institutions to conduct the quiz and inform the results. I request all members to start preparing for academic activities at our annual UAUCON 2017 and especially video clips of demonstrative procedures.

At the north zone conference, when there was a discussion to form subchapters in the north zone, it was very heartening to note that with the formation of UAU, it was far ahead of all other regions. UAU has its own constitution, PAN Number, and a vibrant academic activity throughout the year. Hope to keep its banner flying high.

Dr Neeraj K Agrawal

MS, MCh MBA (Health Care Services)
